Art Unit: 3653

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 through 6 and 16 through 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taub in view of Buttery et al.

Taub teaches everything except a removable perforated section in two of the faces of the box.

Buttery et al teaches providing a removable perforated section 21 in two faces of the dispensing box.

In view of the teachings of Buttery et al, it would have been obvious to one of ordinary skill in the art to provide Taub with a perforated removable section in two of the faces of the box in order to seal the dispensing opening until ready for use.

3. Claims 7 through 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Martin in view of Caldwell et al.

Martin teaches a blank for constructing a box as recited in claim 7. Martin fails to teach a removable perforated section.

Caldwell et al teaches providing a removable perforated section in two adjacent faces of a box.

Art Unit: 3653

It would have been obvious to one of ordinary skill in the art to provide a removable perforated section in the two faces 5,6 of Martin to provide access to the contents of the box.

The box being a tissue box is considered intended use.

4. Claims 11 through 15 are allowed.
